

Use of Simulation for Competency Based Testing

In Long Term Care

Presenters: John Cordova
Nancy Meggelin

Phone: 909-594-5611 ext. 4963

Office: Mt. San Antonio
Simulation Annex

E-mail: jcordova@mtsac.edu

Description:

This course will introduce the Directors of Staff Development (DSD) in Long Term Care setting, to simulated clinical environments (SCE) designed to facilitate the assessment of clinical skills competencies for licensed and non-licensed personnel in a realistic setting.

Objectives:

1. To introduce DSD to simulation technology.
2. Discuss the use of SCE for competency-based skills testing in LTC.
3. Develop a network of potential DSD users of simulation technology to effectively address client training needs.

Requirements:

6 CEU's will be awarded upon completion of the workshop, ~~and~~ post-test, and evaluation.
