

1. Assessment Plan - Four Column

PIE - Student Services: ASPIRE Unit

Where We Are Now: Analysis and Summary

2018-19

Contact Person: Clarence D Banks

Email/Extension: cbanks@mtsac.edu/5661

External Conditions, Trends, or Impacts (Student Services): 1. Aspire received funding from Student Equity that allowed the Aspire to have more movie/ discussion programs.

2. Aspire is a member of the Umoja Consortium. The Umoja Consortium is a collection of African American student success programs throughout the state of California. Aspire students participate in Umoja activities throughout the academic year including the Annual Umoja conference.

Internal Conditions, Trends, or Impacts (Student Services): 1. Staffing challenges/issues impacted the Aspire Program with services, events, and activities.

2. Lack of Program only facilities - The Aspire Program has moved three times in the last few years. The program moved into the new Equity Center in 2018-19. The Equity Center is shared by four programs. Many continuing Aspire students have expressed some un-comfortability in the space, and have sought to have contact with staff outside of the Equity Center. Having an Aspire only space would contribute in-person contact.

3. Due to lack of staffing, Aspire is not able to proactively monitor student performance. There is a need to closely monitor students' attendance, classroom conduct, class assignments, and submission of progress reports in order to intervene and direct students to appropriate campus resource(s) to increase academic success

4. Aspire will continue to research programs designed with intrusive monitoring models to create and implement a program approach that more closely monitors students.

5. Aspire is working with Student Services Minority Male Initiative (MMI). The MMI effort can greatly impact Aspire Program participants.

6. Aspire Program did not hire the Administrative Assistant, Educational Advisor, or Counselor, which negatively impacted Aspire Program services. The Aspire Program had two unsuccessful searches for the Student Services Program Specialist II.. The Aspire Program operated the entire year without the program specialist position.

Critical Decisions Made by Unit: 1. Aspire will continue suspension of the Mentor Program until the program has enough staff to provide service

Notable Achievements for Theme A: To Advance Academic Excellence and Student Achievement: 1. The Aspire Program continued its success in student graduation and/or transfer to universities. For 2015-16 there were 9 students to graduate and/or transfer from Mt. Sac. 2016-17 there were 25 students to graduate and/or transfer from Mt. Sac. 2017-18 there were 19 students to graduate and/or transfer from Mt. Sac. 2018-19 there were 19 students to graduate and/or transfer from Mt. SAC.

Notable Achievements for Theme B: To Support Student Access and Success: 1. The Aspire Program increased student membership during the 2018-19 year. The 2018-19 year brought 82 new members to the Aspire Program.

2. 2018-19 saw the Aspire Program expand programming to include Movie and Discussion series, as well as Theater Plays and Dance Theater Performance by Black playwrights and choreographers. For many students, this was their first time attending theater or professional arts events. 2018-19 continued an increase of student participation in the Aspire Program. Aspire's highest attended event, The Annual Black History Month Luncheon, was attended by more than 250 students, faculty, staff, board of trustee members, and administrators.

Notable Achievements for Theme C: Secure Human, Technological, & Financial Resources: 1. The Aspire was able to secure more hours for the Student Services Support position and student workers for the 2018-19 year.

Notable Achievements for Theme D: To Foster an Atmosphere of Cooperation and Collaboration: 1. Aspire collaborated with the Minority Male Initiative to take a group of students to the A2MEND Conference. Students were able to participate in workshops and presentations by professors and speakers nationally renowned in the field of education and African American Male Achievement.

2. Aspire collaborated with the STEM Center and the Mountie Mentor Program to host a program that brought Women of Color in STEM Professionals to campus to meet, and discuss with students the opportunities in STEM. There are few African American students participating in STEM majors and STEM activities on campus. It is important to expose African American to role their ancestors have played in STEM achievement.

3. Aspire increased the number of events and workshops for Aspire and African American students from 2015-16.

4. Aspire took a group of students to the Umoja Conference. Students were exposed to 4-year universities, as well as cultural workshops and activities. Many students were able to apply up to 40 Historically Black Colleges and Universities for free as a result of attending the conference.

5. Aspire collaborated with the Student Health Center to bring a Black female LCSW to moderate the Souls of Black Girls documentary and discussion to Aspire students. This was the program's first program addressing the mental health needs of Black women on campus.

6. Aspire collaborated with the English Department to provide context for the Theatrical Play and Dance theater events.

7. Aspire collaborated with the Counseling Department to provide Indaba to Aspire students. Indaba are meetings where students can discuss culture, identity, current events, personal development, and experiences facilitated by a Counseling Faculty member.

8. Aspire collaborated with the Student Health Center to have mental health small group discussions led by a Black therapist on staff in the Student Health Center.
