ITEM	DISCUSSION/COMMENTS	ACTION/OUTCOME
1. Welcome	Anthony welcomed everyone to the meeting. Deyi Chen, the new student representative, was introduced.	Information only.
2. Review November 2022 Memory	The November 2022 memory was reviewed.	The memory will be posted to the ITAC website.
3. Communication Regarding Accessibility	The Committee discussed how the College addresses technology and accessibility. There doesn't seem to be a centralized workgroup or subgroup focused on accessibility issues that cover the entire College. IT submitted for a technology web accessibility position during the last resource process but was not approved. Faculty shared that resources are lacking to address accessibility, including training and assistance to ensure course content is accessible. The Committee suggested that no one area of campus handles all accessibility requirements, and perhaps a workgroup should go under a broader area like the President's Office or PAC.	IT will share this discussion with the VP of Administrative Services.
4. Technology Master Plan Update	IT continues to meet with BerryDunn regarding the new Technology Master Plan. The draft will be ready around mid-December. It will be sent to ITAC and President's Cabinet for review.	Information only.
