<u>ITEM</u>	<u>DISCUSSION</u>	<u>OUTCOME</u>
1. Minutes	Review of Minutes from September 12, 2018, May 23, 2018, May 9, 2018	Approved. N Martinez will send to M Acero
2. Committee Membership	The committee membership and goals form was sent to SP&S in early September. J Ocampo recommends that SSSPAC go forward as an Assessment committee as it used to be years ago prior to SSSPAC being connected to SP&S. His recommendation is that those who are affected by placement services on this committee meet on a regular basis. A few more changes were made to the list: D Beydler co-chair, English, Ned Weidner (Guest) & Michael Harper	A Lujan will check with Counseling to see who will represent. Changes will be sent to SP&S.
3. AB705 Update	D Rowley updated us on the AB705 meeting in San Bernardino last week. Everyone had a chance to ask questions. New this time around is that the two- or three-year clock can begin in non-credit if the NC course feeds into English/Math. There is no widely accepted definition of what is highly unlikely to succeed in a class. No answer to that right now. It could be from 6% to 70% highly unlikely.	D Rowley will send to the group a PPT on what is highly unlikely to succeed.

<u>ITEM</u>	<u>DISCUSSION</u>	<u>OUTCOME</u>
	<p>Students on probation for two semesters in a row lose their BOG. If a course has a hard prerequisite, data must be collected for three years first. D Beydler has heard that highly unlikely is about 10% on average -- or perhaps 5-10 percent, 20-30% is the highest possible range of highly unlikely. But 40% is not highly unlikely to succeed, according to what D Beydler has been hearing.</p>
