Program Outcome Reporting Resolution – Passed unanimously, May 16, 2013, by the Academic Senate
March 2013

To sustain the transparency requirements of Academic Senate Resolution 2009-02, as well as to ensure compliance with the expectations of the ACCJC, the Outcomes Committee recommends that the college host reports on the Outcomes website that detail progress towards program-level SLOs.

The proposed reports would be an enhancement over the current publicly available data found at http://slo.mtsac.edu in that the website currently lists just the program outcome for each degree or certificate. The type and format of the proposed reports would be similar to the examples below, and remains a subset of the data currently available to students and faculty via the my.mtsac.edu portal.

The Outcomes Committee agrees that adding reports of this nature to the college's website will ensure compliance with ACCJC requirements.

Degree/Certificate	Program Outcome	Criteria For Success	Summary of Data Type	Date
Administration of Justice Certificate: Law Enforcement - T2102	Students will understand the different tasks within general patrol functions	60% of program completers will score 70% or higher on a n exam covering different tasks within general patrol functions	Criterion Met	01/24/2013
Aeronautics, Transportation Degree: AS – Commercial Flight – S0912	Students completing the program will be able to compute takeoff and landing data. (From capstone course AERO 25)	60% of the students will pass at a score of 70% or higher	Criterion Met	07/07/11
