

Library Food and Drink Guidelines

To help maintain a clean and welcoming environment for everyone:

- **Be mindful of snacks and drinks.** Food and beverages can attract pests and cause damage to library materials, equipment, and furniture.
- **Clean up after yourself.** Please dispose of trash properly and leave the space as you found it.
- **Respect shared spaces.** Messes and lingering smells can be disruptive to others, may need to be addressed by library employees, and could even attract pests like bugs and rodents.
- **Keep the study rooms for studying.** Messes, spills, or lingering smells from food or drinks can impact other users and those who use the space after you.
- **Report spills or messes.** If an accident happens, please let library staff know so we can maintain a clean learning environment for everyone.
- **Avoid food in computer areas.** Help us keep equipment clean and functioning properly by not having food near computers, print stations and scanners.
- **No food deliveries or parties.** Group meals or food deliveries are not allowed, except for approved library events.

Thank you for helping us maintain a space where everyone can focus and enjoy their time at the library!
