Landscape/ Irrigation Designer
BMLA, Inc. – Corona, CA

About Us
BMLA is seeking an enthusiastic and skilled Landscape Designer with experience in Irrigation Design. We are a well-established landscape architecture firm with 37 years of expertise, located in Southern California. Our portfolio includes a diverse range of projects, such as master-planned communities, multi-family and senior living developments, commercial and retail spaces, public open spaces, streetscapes, and sports parks. To learn more, visit us at www.bmla.net.

Position Overview
The ideal candidate will have experience in Irrigation Design, the ability to multitask, and a strong aptitude for working in a collaborative, team-focused environment. We use Land F/X software with an irrigation module tailored to our standards. Initially, you'll work closely with our irrigation experts, but you'll also have the opportunity to take on independent tasks and expand your expertise. Additionally, you'll be involved in a variety of projects and contribute to every phase of the landscape design process, including site analysis, conceptual design, and construction documentation.

Responsibilities

- Collaborate with a multi-disciplinary design team.

- Contribute to conceptual design, irrigation design, and construction documentation.

- Utilize tools such as Land F/X, Photoshop, SketchUp, Lumion, and GIS to create compelling designs and presentations.

Skills & Qualifications

- Ability to work independently and as part of a team.

- Strong organizational, time management, and communication skills.

- Proficiency in AutoCAD, Adobe Photoshop, SketchUp, and InDesign.

- Strong irrigation design knowledge.

- Experience with Land F/X and GIS is advantageous.

Education Requirements

- Bachelor of Science in Landscape Architecture preferred.

Compensation
Salary is commensurate with experience, ranging from $20 to $30 per hour including full benefit package.
